We are doctors who are trying to find out more about how you have been in the last few months and who you saw when you were poorly. We want to know this so that we can help other children like you.

You can help us by letting us look at the information your parents/carers gave to the doctors at the hospital when you saw them.

You don’t have to take part. If you say no your doctor will look after you in the same way as before.

We cannot promise the research will help you. But the information might help children who have a tumour like you in the future.

If at any time you do not want to do the research anymore, just tell your parents, doctor or nurse. No one will be cross with you.

Thank you for reading this. Ask us any questions you like!
