Make your own CCAM bunting!

For the bunting you’ll need:
- White card
- Printer
- Scissors
- Hole Punch/Craft knife
- Wooden pegs (optional)
- String, twine or ribbon

How to make your bunting...
1. Print the flags you want to use onto white card.
2. Cut out each flag, carefully following the lines.
3. Attach the flags to string, twine or ribbon with wooden pegs. Or alternatively use a hole punch or craft knife to make holes or slits on the left and right of the top of each flag for the string, twine or ribbon.
